*On invoices denominated in \$CAD, the USD Fuel Surcharge will be converted to \$CAD based upon the Bank of Canada average exchange rate [USD close], available at www.bankofcanada.ca. The conversion will be based on the 15 day average exchange rate prior to 20 days preceding each Application Period.

**On-Highway Diesel (OHD) prices published by the [U.S. Energy Information Administration](http://www.eia.doe.gov) (EIA) [Diesel (On-Highway) - All Types].

Table 2: Bulk surcharge reference table

Program notes

- This program applies a fuel surcharge based on cents per revenue mile for Bulk or Carload traffic:
 - The Bulk factor applies to grain, coal, fertilizer, sulphur and crude oil shipments and will be adjusted by \$0.05 USD per mile for each \$0.024 change in the OHD average price [see Table 2].
 - The Carload factor applies to all other carload shipments and will be adjusted by \$0.05 USD per mile for each \$0.022 change in the OHD average price [see Table 3].
- This mileage-based fuel program is administered using route miles based on the PC*Miler|Rail fuel surcharge router (FNII) non-familized. For joint-line moves, the FNII router observes each carrier's routing preference to calculate that carrier's mileage. The route miles applied will reflect the 'Fuel Surcharge' miles based on the designated routing found within the rate authority(ies) applied against the shipment. When two or more rate authorities are used in combination to form a single rate, miles will be calculated for each rate authority representing each leg of the shipment.
- Mileage-based fuel surcharge does not apply to Intermodal traffic [see [Tariff 9900](#)].
