Tariff 4 – Transload Supplemental Services

Application  Item 1
In addition to any other applicable tariff, the prices, charges and rules of this Tariff, as amended from time to time, apply. The rates apply as published at the time the service was rendered, in the currency of the country in which it occurs.

The services in this tariff are those uniquely applicable to CP’s transload facilities above and beyond those listed in Tariff 2. The local transload facility may invoice you for these services directly.

For details on the services included in your quote, please review CP’s Guide to Products and Services, Tariff 1.

Shipment Preparation  Item 10
Waybilling Instructions
A rail car being shipped to or from a transload facility requires specific billing instructions to ensure the product is delivered to the correct party. The Transload Facility operator name must be shown as the care-of party on the shipping instructions.

For a list of the correct transload facility operator names, station names and station numbers for both CP owned and private transload facilities, please visit our website at: http://www.cpr.ca/en/choose-rail/network-and-facilities.

$200 per trailer

Cancelled orders  Item 11
When equipment has been ordered and dispatched, confirmed, or delivered and the order is cancelled or the shipment it is not tendered for movement on CP according to the order, this penalty applies in addition to other fees such as re-delivery fees.
